

Abdulrahman Sabah

PROFILE

Final-year Computer Science student with a strong foundation in software development, cloud computing, and cybersecurity. Holds the **Microsoft Azure Fundamentals (AZ-900)** certification, demonstrating knowledge of core cloud concepts, services, and deployment models. Experienced in working with modern technologies including full-stack development frameworks and backend systems. Passionate about building scalable applications, learning new technologies, and applying problem-solving skills to real-world challenges. Recognized for strong problem-solving abilities, adaptability, and a proactive approach to delivering high-quality technology solutions within professional team environments.

WORK EXPERIENCE

Health Advance Institute, South Africa *(Dec 2025 – Jan 2026)*
Gained practical exposure to real-world software development environments, focusing on authentication systems, secure application design, and deployment processes. Developed understanding of modern frameworks, cloud-based workflows, and collaborative development practices.

- Observed and learned how authentication systems are designed and implemented using modern frameworks.
- Gained exposure to React, Angular, and secure login systems, including OTP-based authentication.
- Assisted in understanding CI/CD pipelines and deployment processes used in real-world projects.
- Collaborated with developers and gained insight into software development workflows and best practices.

CERTIFICATES

- Azure Fundamentals (AZ-900) – Microsoft (2026)
- Full Stack Web Development – Amazon (2026)
- Introduction to Cybersecurity – Cisco (2026)
- Cybersecurity Essentials & Careers – IBM (2026)
- Deployment & DevOps – Microsoft (2025)

SKILLS

- Programming: Java, TypeScript, C++,
- Web: React, Next.js, Tailwind CSS
- Backend: NestJS, TypeORM
- Databases: PostgreSQL
- Tools: Git, Docker, CI/CD
- Other: Debugging, Problem Solving
