Personal Profile

Final-year Computer Science student at the University of Pretoria with hands-on full-stack experience across React, FastAPI, PostgreSQL and AWS. Helped build EquityLens, an AI-powered portfolio analysis platform, for an AWS-sponsored capstone. Looking for a graduate software engineering role starting 2028. Driver's licence and own car.

Education

BSc Computer Science - University of Pretoria · 2023–2026 (expected)

- Third-year modules: Software Engineering capstone (COS301), Artificial Intelligence (COS314), Database Systems (COS326), Computer Networks (COS332), Programming Languages (COS333), Compiler Construction (COS341), Computer Graphics (COS344), Genetics elective (GTS368)

Matric - CBC Boksburg, 2022

Projects

EquityLens - AI-powered portfolio analysis for retail investors · COS301 capstone, client: AWS · team of 4 · 2026 · equitylens.co.za

- Full-stack platform: React + Vite + Tailwind frontend, FastAPI backend (routers → services → repositories), PostgreSQL on RDS, Cognito auth
- Designed the AI assistant on Amazon Bedrock (Claude), including its system prompt and two tools for live JSE/global prices and market news, scoped to stay on the education side of financial advice
- Wrote pytest integration tests for the portfolio and market-data services, stubbing the external price feed with fixtures
- GitHub Actions CI with two-approval PR workflow

SPL compiler front-end - COS341 group project · 2026

- Built the lexer for a parser of SPL (a teaching language), producing an XML syntax tree consumed by later compiler phases

FIT: Take Control - habit tracker and journal app · personal project · in progress

- iOS app built with Expo / React Native, Drizzle ORM and Supabase.

Technical skills

Area	Skills
Languages	Python, JavaScript, Java, SQL, C++
Frontend	React, Vite, Tailwind CSS, Next.js, React Native (Expo)
Backend & data	FastAPI, REST APIs, PostgreSQL, JPA
Cloud & DevOps	AWS (Bedrock), Docker, GitHub Actions
Testing	pytest, Vitest, Playwright

Activities

- Play cricket and golf
- Investing and the JSE; football analytics (building a Fantasy Premier League optimiser)
